MINDFULNESS AND MOTIVATION ROUTINES TO REDUCE STRESS, ENHANCE RESILIENCY, AND IMPROVE LEARNING AND LIFE OUTCOMES

The best-selling *Miracle Morning* series is based on the Miracle Morning Life S.A.V.E.R.S. routines built around 6 key practices: Silence, Affirmations, Visualization, Exercise, Reading, and Scribing. These routines provide students, teachers, administrators, and parents with a range of effective step-by-step processes to:

- ✓ Support the social and emotional well-being of stakeholders in school and in the community
- ✓ Improve personal wellness to positively impact student achievement
- ✓ Increase student motivation and engagement
- ✓ Learn and teach with intentionality and mindfulness
- ✓ Build stronger relationships in the classroom and in the community
- ✓ Improve commitments to self-care to boost endurance and reduce stress

Praise for *The Miracle Morning* Books:

“The *Miracle Morning* books are remarkable. Given the challenges of the last year, when I introduced this series to my teachers and students, miracles really did happen! Our culture and climate domain was rated highly effective. Our students were calmer and had a more positive mindset. Attendance improved, there were no suspensions, and overall behavioral issues declined significantly.”

—**School Principal, New York City**

“What Hal has done is taken the best practices, developed over centuries of human consciousness development, and condensed the ‘best of the best’ into a daily morning ritual. A ritual that is now part of my day.”

—**Robert Kiyosaki, bestselling author of *Rich Dad Poor Dad***

Hal Elrod, Author

Hal Elrod is living proof that every single one of us has the ability to overcome our adversity and create the most extraordinary life we can imagine. At age 20, Hal was hit head-on by a drunk driver, died for six minutes, broke 11 bones, suffered permanent brain damage, and was told he would never walk again. Defying the logic of doctors and the temptations to be a victim, he has gone on to become a Hall of Fame business achiever, ultra-marathon runner, multiple-time #1 best-selling author, hip-hop recording artist, husband, father, and international keynote/motivational speaker.

Brianna Greenspan, Author

Brianna Greenspan has been using the power of positive affirmations for the past 13 years to overcome physical challenges brought on by being born with a chronic invisible illness. When Brianna decided that the labels and limitations of her medical team did not align with what she believed to be possible for her life, everything began to change. Instead of being held back by neck braces, surgeries, and countless doctors' visits, Brianna completed her first 10k and hiked Half Dome at Yosemite National Park.

Brianna is living proof that the power of positive affirmations coupled with extraordinary faith and immense effort really can overcome the biggest obstacles.

In spite of Brianna's personal health battles and previous limiting beliefs, Brianna's decision to see the word "impossible" as "I'm possible" has propelled her to reach new levels of achievement. By incorporating the *Miracle Morning* into her life, her outlook on her previous limitations was thrown out the window by adopting the mindset that with a commitment she could achieve anything.

Make it! HAPPEN!
Explore Your Interests

Turning something you love to do into a career can be a great idea. Do you love to sing, like Wé? Maybe you love to write stories or play video games? Here's what you can do to begin to plan for an innovative and fascinating career:

- Search for a career with your interest in mind. Online, try searching for "Jobs for ____." Put your interest in the blank space.
- What type of jobs came up? Make a list.
- Search for jobs with another interest you may have. Are the results similar?

Share your job list with a parent or teacher. Together, you can make a plan to turn what you love into a possible future career.

Make it! HAPPEN!

Make a Daily Plan

Ashima worked hard to become a successful rock climber. She practiced whenever she could, both after school and when school was on a break. Do you have a sport or activity that you are interested in? If so, spending time practicing regularly is important. To do so, make your own daily schedule that includes:

- when to wake up
- when to eat (three meals per day)
- when to go to school
- when to get schoolwork done
- when to go to the gym or other location for practice
- when to spend time with family
- when to watch TV or use the computer

Share your schedule with a friend. How are your schedules the same? How are they different?

Did you know that **three out of four** elementary and middle school **students have been bullied?**

When it comes to bullying prevention, one of the greatest challenges is distinguishing between what is and isn't bullying.

Whether a student is being harmed physically or with words, parents and caregivers must be equipped to help their children identify and cope with bullying behavior while taking the necessary measures to make sure it stops.

Information, Tips, and Activities to Address and Prevent Bullying Behavior

WHAT BULLYING IS NOT

Q: Are there different kinds of bullying?

- VERBAL** – name-calling, teasing, making fun of a person
- EMOTIONAL** – telling lies about someone; spreading rumors; excluding someone
- CYBERBULLYING** is a type of "emotional" bullying. Cyberbullying happens online when someone posts something mean or embarrassing about another person on Facebook, for example; or when someone spreads lies through email or text messages.
